Dear Mr. Anderson,

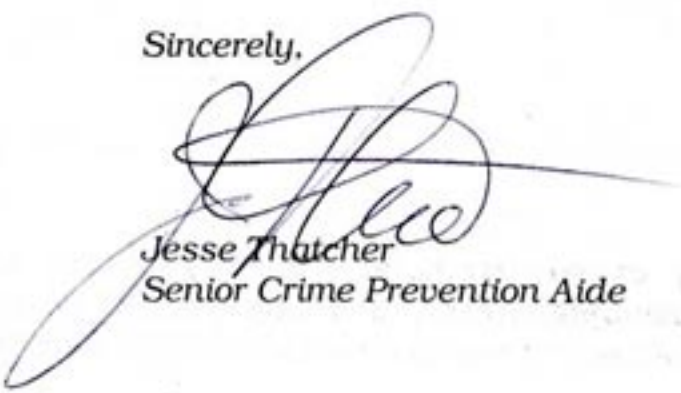

Thank you for providing our Department with a sample of your StrikeMaster II door frame reinforcing device.

I have had the good fortune of visiting a home in which it is installed, and thanks to the home owner's permission, can provide testament, at least to the soreness in my own left shoulder, as to its effectiveness.

*I have been a consultant in the area of Crime Prevention for eighteen years, and your StrikeMaster II is the first new product designed to provide physical perimeter protection that I would wholly and unconditionally endorse. In fact I have already begun to recommend its application, confident as I am of its ability to provide safety and security.*

Thank you for your support of Police Division initiatives.

Sincerely,

Jesse Thatcher  
Senior Crime Prevention Aide
